

Health conscious individuals now have a new, safe and natural choice in personal lubrication with Ready Lube natural personal lubricant

Ready Lube gives concerned men and women the ability to enhance sexual intimacy and pleasure with it's unique natural water based formula. Made with minimal natural ingredients which include soothing vitamin E and Aloe Vera as well as two powerful aphrodisiacs, Yohimbine and Ginseng, for added sexual stimulation. Effective and gentle, Ready Lube is quickly becoming the lube of choice.

Avondale, Arizona (MGO Creations) January 29, 2007 -- A long lasting and pH balanced personal lubricant, Ready Lube (<http://www.ReadyLube.com>) is dramatically improving the sex lives of men and women around the world with high quality natural ingredients. In fact, over 90% percent of all customers re-order.

Ready Lube has changed the way people think of personal lubricants by offering a long list of health related benefits that include being free from Propylene Glycol, Paraben's and Petroleum's.

About Ready Lube:

Ready Lube is formulated and manufactured in a certified organic and licensed FDA facility following strict FDA guidelines under the current GMP standards. This latex safe, moisturizing formula contains zero fillers such as fragrance, flavor and color/dye. Ready Lube is available exclusively online at <http://www.readylube.com>
